2010 Lunch on the Lane Concert Series Set for Fridays in June
Performers Announced

(Westminister, MD) -- It's almost summer, and there are lots of reasons for getting outside. One of them is the free 2010 *Lunch on the Lane Concert Series* in Downtown Westminister.

Great musical sounds will abound from the Locust Lane stage every Friday at Noon during the month of June, as the *Lunch on the Lane Concert Series* comes back to rock the town.

Leftstronger will kick off the series on Friday, June 4th. Leftstronger is an amazing band that performs all original music in the style of Alice in Chains, Shinedown, Creed and Soundgarden. Leftstronger's music combines all the elements of great, radio-friendly rock and roll: catchy hooks, hard-driving rhythms and strong vocal harmonies.

Skydivers from Baltimore, Maryland, will perform their pop/rock, indie music on June 11th. Local band Twenty for Seven takes to the Locust Lane stage on June 18th in their first appearance at Lunch on the Lane.

Sepia closes out the series on June 25th. Labeled by some as post-punk folk rock, Sepia pulls from a diverse set of influences spanning blues, rock, punk, metal, and pop. Regardless of labels, the music is all unique and all Sepia.

Each concert runs from 12 noon to 1:00 pm; so buy a brown bag lunch, a hoagie or a slice of pizza from one of our fine downtown eateries and come listen to the music while you savor our local flavors.

The Downtown Westminister Main Street Program and Coffey Music are once again the proud sponsors of the *Lunch on the Lane Concert Series*.

Locust Lane Stage is just off East Main Street, across from the Westminister branch of the Carroll Public Library, between Pomeroy Jewelers and The Optical Solution. Ample parking is available in the Longwell Parking Deck and Sherwood Lot behind Locust Lane.
